DETAILED ACTION

Response to Arguments

Applicant's arguments, see pages 8-9 of remarks, filed January 31, 2005, with respect to the rejection(s)of claim(s) 1, 2, 5, 8, 10-11, and 13-15 under 102(e) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of indefinite claim language.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

> The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 2, 5, 8, 10-11 and 13-15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Regarding claim 1, the specification as filed does not teach the limitation "with respect to one of said plurality of generated clocks" in lines 8-9. The specification for instance, page 17, lines 19-20 teaches at best that one of the clocks is used to clock D flip-flops 210-216 of Fig. 2.

Regarding claim 5, lines 8-9 see claim 1.

Regarding claim 8, lines 8-9 see claim 1.

Claims 2, 10, 11 and 13-15 are dependent upon independent claims 1, 5, and 8, and are thereby rejected under 112 First Paragraph.

Allowable Subject Matter

Claims 3, 4, 6, 7, 9 and 12 are allowed for reasons described in Office Action mailed May 7, 2004.
